NEW BUILDING

In tankers this week, Nanjing Yangyang Chemical Transport announced ordering two firm 13k dwt Chemical tankers at Dayang Offshore, with both deliveries expected within 2023.

In dry bulk, Wisdom Marine announced an order for two firm Ultramax at Imabari Shipbuilding, with delivery of both vessels expected within 2024.

In the gas carrier market, Hyundai HI (Ulsan) announced taking orders for two firm 174k CBM LNG Carriers from an unknown owner, with delivery of vessels set for 1H 2024. Hyundai Samho took order for a firm 174k CBM LNG Carrier, also from an unknown owner, with delivery slated for 3Q 2024.

In other sectors, it has been reported that Huangpu Wenchong took orders for four firm 32k dwt MPPs from Schoeller Holdings, with the vessels all to be delivered in 2H 2024.

RECYCLING

Lighting Up!

The lights from the Diwali celebrations have shone brighter than the recycling market this week with, not surprisingly, little activity witnessed.

As most of the Indian sub. Continent took time out to celebrate the annual festivities, the lack of tonnage continues to ensure that we should see price levels maintain their firm position, most likely, through to the end of the year. Bangladesh has once again shown improvements in their rates and look set to jump ahead of their counterparts from India once again. Pakistani recyclers also have confidence in their domestic market with price levels competitive to elsewhere, however only concern remains the volatility of the local currency which could halt any further steps forward.

Looking further west towards Turkey, slot availability continues to cause some concern for those units requiring dismantling in accordance with the EUSRR (European Union Ship Recycling Regulation) laws. There are still several cruise ships being dismantled that were acquired towards the end of last year and there seems to be a continual supply of semi-submersible units, all of which require recycling at EU approved recycling yards. In addition to several tankers on these specific yards, currently very large LDT units are being dismantled at these Turkish EU approved yards so therefore, the time to recycle the vessels takes much longer and subsequently, we see a longer time for slots to free up on these yards. At present, openings for new units to be delivered to these EU approved yards look to be commencing from beginning December 2021 to January 2022.
