New Building

In containers this week, CMA CGM ordered eight firm methanol dual fuel 9,200 TEU containerships at CSSC Shanghai Waigaoqiao. The first vessel is expected to deliver at the end of 2026, then the remainder through until mid 2028.

In dry bulk, New Dayang confirmed contracts for four firm 63k dwt Ultramaxes for AVIC Leasing, with the vessels expected to deliver within 2026. Taizhou Haibin announced orders for ten firm 60k dwt domestic trading coastal bulkers for Zhejiang Jinpu, with the vessels slated for delivery throughout 2025 and 2026.

Finally, in general cargo, Skarv Shipping announced ordering four firm plus two sets of two optional 7k dwt general cargo vessels at Huanghai SB. The vessels will hold both ammonia ready and methanol ready class notations, with the firm vessels expected to deliver in 2H 2025 and 1H 2026.

Recycling

Autumn Fall !

As we enter the Autumnal season which is classed as the hardest season when leaves fall and trees look bare, the recycling market is currently taking on a similar scenario where activity from the Bangladeshi and Pakistani recyclers are once again meagre, with patchy activity, and only the Indian recyclers showing signs of any positive mood.

There are several positive notes emanating from India that look set to keep sentiment from this destination upbeat, financial stability, ongoing demand for steel on the back of government support to give continued assistance to their local infrastructure/construction and of course, the potential of more tonnage eventually hotting the market for green recycling, of which almost all yards now being HKC compliant.

Elsewhere, the Bangladesh market looks set to stay on the sidelines as they continue to suffer Letter of Credit limitations and tougher exchange rates. Pakistan has certainly lost some of its recent appetite with those recyclers that acquired tonnage over recent months now reportedly struggling to make any form of profit following their own currency fluctuations.
