Recycling

Plenty of room at the Inn!

Market conditions remain similar to recent weeks as we head into the Christmas and New Year celebrations, with the lack of available tonnage continuing to frustrate the recyclers and leaving their facilities depleted. This may be a good thing as sentiment in India is muted with daily downward corrections in the domestic steel markets, thus this lack of supply may help to stabilise the situation and stop any negative response to price levels for any tonnage. Bangladesh and Pakistan remain limited in activity, continuing to be restricted by their financial implications that they have battled with throughout this year.

Meantime, the headline news this week in the shipping industry reflected on the worsening situation caused by the Houthi rebels in the Yemen/Red Sea area with the announcement by many ship owners that they will be diverting their tonnage away from this region. This could also prolong any recycling activity in the near future as freight rates have increased due to these diversions of their vessels from the area, creating longer voyages around the Cape of Good Hope. This will see a further utilization of the fleet and keep aging units in service and therefore away from the Indian sub-continent shores.

There are no sales to report this week.

Meantime, we take this opportunity to thank you for your continued support throughout the year and wish you all a very Merry Christmas and continued success in 2024.
